

FIORESE[®]
The Piano Shell Company

Product Catalogue - 2018

The piano shell industry is here.

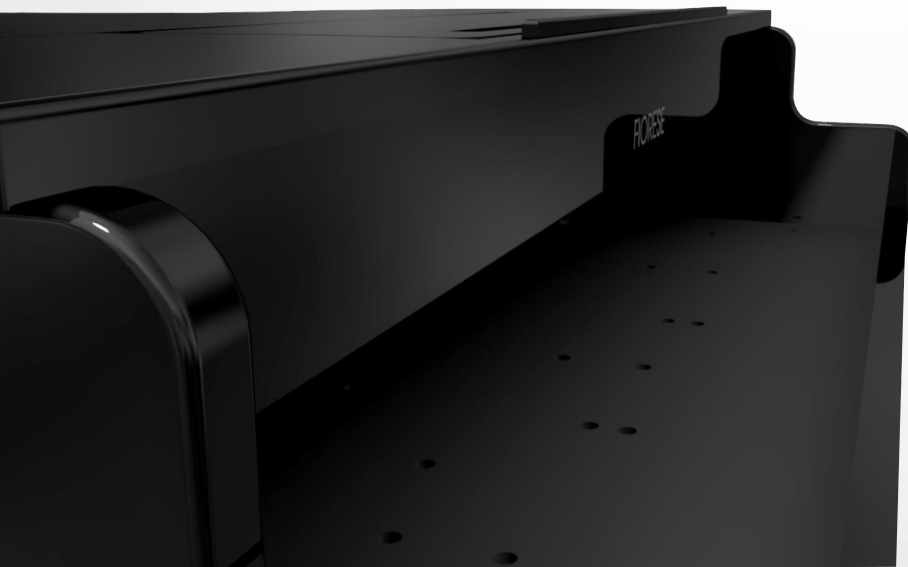

With our own patents, Fiorese is the first in the world to mass produce piano shells for digital pianos. Our production and development is continuously updating, following international standards to best give you the right instrument.

A Fiorese piano shell will bring life and soul to digital pianos, allowing musicians to have all its modern functionality with the grace, beauty and sound of a classical piano.

Our design is made by engineers and musicians using high tech labs to develop the best product we can.

Some of our models has Shinoto® audio system, Made to reproduce with perfect accuracy the most sophisticated sounds. Your digital piano will sound like acoustic.

Above all, Fiorese shells are available in universal sizes, making it compatible with most of the digital piano brands and many other audio devices.
